

LIST OF PICTURES

HISTORY OF POPULATION page

- Peoples of Hungary in the 11th century 16

POPULATION NUMBER, POPULATION DENSITY page

- A mountain farmstead in the sparsely Carpathians populated 29
- More than ten thousand people live in one square kilometre in the inner districts of Budapest 29

NATURAL CHANGE OF POPULATION page

- On average, 90 thousand children were born annually in Hungary in the last decade 33
- Almost 130 thousand people died each year in Hungary over the last twenty years 37

MIGRATION page

- Hungarian refugees in Vienna, 1956 46
- Migrants heading to Vienna from Budapest in 2015 50
- ‘Technical border barrier’ on the Hungarian–Serbian border blocking illegal migration 50
- Congestion on the motorway near Budapest 54
- Railways were used for mass commuting into the capital in the 1960s 54
- People living in little villages cannot afford long-distance commuting; many become unemployed 56
- Commuters at the Austrian border near Sopron 57
- Many commuters to the capital use suburban transport (e.g. HÉV, railway) 57

POPULATION STRUCTURES SEX AND AGE page

- Distribution of the population by sex 58
- The meeting of three generations 59
- Children, the hope of the future 62
- In Hungary, elderly people have outnumbered children since the turn of the millennium 63
- People aged 15–64 have made up two-thirds of the population for a century 63

MARITAL STATUS AND HOUSEHOLDS page

- Families are the foundation of society 64
- The number of marriages almost doubled in Hungary in the past decade 64
- A divorced mother and her child 67

ETHNICITY, LANGUAGE page

- Palóc people, one of the largest ethnographic groups of Hungarians in Hungary 74
- Székelys, the most homogeneous Hungarian community in Transylvania 74
- Roma people, the largest ethnic minority in the Carpathian Basin 76

RELIGION page

- The majority of religious Hungarians are Roman Catholic ... 82
- Csiksmlyó (Šumuleu) Pilgrimage has become a major Christian event for all Hungarians 82
- Most religious Hungarians east of the River Tisza are Calvinists 82

- The Orthodox Church is the main denomination in the southeastern half of the Carpathian Basin 83
- Jewish people made up almost a quarter of the population of Budapest in the early 20th century. Synagogue on Dohány Street 83

EDUCATIONAL STRUCTURE page

- An important milestone for young people: secondary school graduation 84
- Students at a university graduation ceremony 85

ECONOMIC ACTIVITY page

- The largest employment sector in Hungary is trade 91

SOCIAL STRATIFICATION page

- The majority of Roma people in Hungary live in cumulatively disadvantaged conditions 97
- Managers are overrepresented in Budapest and in its agglomeration 97
- Even in Budapest, many people in deep poverty live in ghettos 99

SETTLEMENT SYSTEM page

- Rebuilt after the floods of 1879, Szeged is the regional centre of the Southern Alföld 108
- Szalafo-Pityerszer, an example of the fragmented (‘szeres’) settlements common in the Őrség (Vas County) 112
- Hortobágy, a village with a regular layout designed by engineers 113
- Florești (Szászfenes) near Cluj-Napoca (Kolozsvár) is an example of unbridled suburban development 113

URBAN SETTLEMENTS page

- Dunaújváros, established in 1950 (called Sztálinváros – Stalin City at that time), bears modernist architectural features 116
- Sopron, established in the Middle Ages, is now one of the fastest growing towns in Hungary 121
- Diósgyőr, with its medieval castle and ironworks, became part of Miskolc in 1945 123

BUDAPEST AND ITS REGION page

- Budapest, the capital of Hungary, has many national landmarks (Buda Castle, Chain Bridge, Parliament) 128
- The inner parts of Budapest have ageing populations and are popular with tourists 130
- The time-honoured Wekerle estate still preserves its status (District XIX) 130
- Many new jobs have been created in areas of urban renewal (along the Danube in Ferencváros, District IX) 132
- The Corvin-Szigony neighbourhood in the central part of Józsefváros (District VIII) has been a symbol of urban renewal in Budapest in recent years 133
- The high-rise Havanna Estate in District XVIII of Budapest was completed in 1978 with pre-fab technology 133
- The exclusive Marina Bay Residence in the former industrial zone of Angyalföld near the Danube (District XIII) 134
- Dwellings with one room and a kitchen are common in the inner residential zone even today (Józsefváros, District VIII) 134
- Terrapark, an office park in Budaörs offering high-quality job opportunities 136

- A luxury dwelling in the Budapest agglomeration (Budajenő) 138
- Magdolnavölgy Residential Park in Piliscsaba offers an attractive residential environment on the western side of the agglomeration 139

RURAL AREAS page

- Many livelihoods depend on tourism in the small North Hungarian village of Hollókő, a World Heritage Site (Nógrád County) 143
- Scattered farmsteads (tanyas) are a typical settlement form in the Alföld region 145
- The majority of the most dynamic villages offering excellent living conditions can be found in the agglomerations of major cities; Keszű in the vicinity of Pécs 146
- A street in a typical large village in the Alföld. Jászládány (Jász-Nagykun-Szolnok County) 147
- View of a small village in the hills of Transdanubia. Tékes (Baranya County) 147
- The frescos on the houses have brought international fame to Bódvalenke, a village with a Roma majority population (Borsod-Abaúj-Zemplén County) 149

LIVING CONDITIONS, QUALITY OF LIFE HUMAN SIDE OF LIVING CONDITIONS AND QUALITY OF LIFE page

- A renovated local health centre in the Southern Alföld 152
- Locals playing sports or relaxing in a refurbished park in Szeged 153
- A typical urban shopping centre: Corvin Plaza in Budapest 157
- An outdoor classical music concert in Pécs 157
- Book launch 158
- Online education using mobile devices at a university 159

LIVING CONDITIONS, QUALITY OF LIFE SETTLEMENT SIDE OF LIVING CONDITIONS AND QUALITY OF LIFE page

HOUSING CONDITIONS

- The ‘Village House’ (Faluház) in Óbuda (District III, Budapest) is the largest residential building in Hungary. Built using prefab technology in 1970, it could have housed the entire population of the spa town of Hévíz (Zala County) 160
- ‘Kádár Cube’: this form of private architecture became popular in Hungarian villages in the 1960s. Egyházaskozár (Baranya County) 163
- Although adobe buildings are environmentally friendly, they are less durable. Okorág (Baranya County) 165
- In urban neighbourhoods with ageing populations, residential density is relatively low. Józsefváros, Budapest 166
- Substandard overcrowded dwellings are typically found in disadvantaged regions 168

MUNICIPAL ENVIRONMENT

- Urban green spaces accommodate human comfort needs at Teleki Square in Budapest 170
- A renewed public square: King Béla Square in Szekszárd (Tolna County) 171
- Road improvements in villages in the Southern Alföld 172

LIST OF ENGLISH AND FOREIGN PLACE NAMES

The List of Place Names includes the English geographical names (names of natural, historical, ethnographical regions, and administrative, topographic, hydrographic and settlement names) and their equivalents in foreign languages. When there exist several forms in foreign languages, we list only the official version in the respective country/ies, giving the initials of the country in brackets. A= Austria, BG= Bulgaria, BiH= Bosnia and Herzegovina, CZ= Czechia, H= Hungary, HR= Croatia, MD= Moldova, PL= Poland, RO= Romania, SK= Slovakia, SLO= Slovenia, SRB= Serbia, UA= Ukraine.
